

11 April 2023

all members were attended

Things done/discussed

- check if everybody started iteration 3
- discuss throw error part
- remind and discuss the usage of the token
- remind the deadline and rearrange
- remind fixing the return which is either the error type 400 or 403
- remind each other that we need to do interview

TO DO

- finish all tests by this Wednesday
- finish implementation by this Friday
- do interview (one more person is needed to be chosen)
