Minutes of Meeting – Tuesday 4/4/23

People Present: Michael, Jack, Claire, Liren

Discussed:
- Discussed results for iteration 2 and proposed initiation for iteration 3
- Plan on fixing all functions before starting iteration 3
- Trying to merge all conflicts so that we can begin new iteration
- Talked about content for week 7
- Discussion about creating a list to fix all the issues from iteration 2 and delegating task on Thursday the 6/4 during our tutorial/lab
- Problems with the .yaml file
- Questioning if iteration 1 has been fully passed
- Discussed error occurred when the branch is being pushed (few members faced this problem and resolved through the discussion)
- Deletion of post.test
- Making sure its tsc compliant
- Added **FIX** to the function "to-do" list
- Discussed test files with throw and catch errors etc.
- Discussed whether we need specific error messages, asking tutor on Thursday.
- Splitting fixing of iteration 2 functions so that the workload is distributed evenly
- Discussed if we implemented persistence properly

To do:
- modify code that completes and fix iteration 2 failed tests
- implement throw and catch testing before Thursday
- Delegate tasks on Thursday
